Deputy Head Mr Edward Dooley

14 December 2018

Dear Parents

We are writing to advise you that as a result of the disappointing local authority audit that was held in the school in October 2018, we have since been issued with a pre-warning letter.

The letter states 'Further to an analysis of a range of factors including the school's performance and the LA scoping audit it is clear that the school faces a real challenge in addressing its improvement priorities and in meeting the criteria that will secure a successful inspection.'

Since the beginning of this academic year, the school has been clearly focused on improvement so that your children receive the best education that they should expect to receive.

In September we started to teach phonics differently, we are now using Read, Write inc, which is a structured approach to teaching phonics, reading and writing. This has already had an impact on your children's learning. Please see the schools website for links to the Ruth Miskin Read, Write Inc website, as well as the slides for the parents meeting that was held on 28 November, 2018.

The school continues their work in improving the process for teaching maths, this has resulted in the maths outcomes of children meeting the expected at the end of Key Stage Two (Year 6) increased by 21% from 34% to 55%.

Over the summer, the school has also been looking at the curriculum for the other subject areas and this is an ongoing process, where we are developing a curriculum that meets the needs of the children here at Bluebell.

The Governors, Leaders and staff of the school are all fully committed to improving the school and are striving relentlessly to do so.

Yours sincerely

Trudi Sharred
Head Teacher

Sue Ryan
Chair of Governors
